WARNINGS — AVVERTENZE

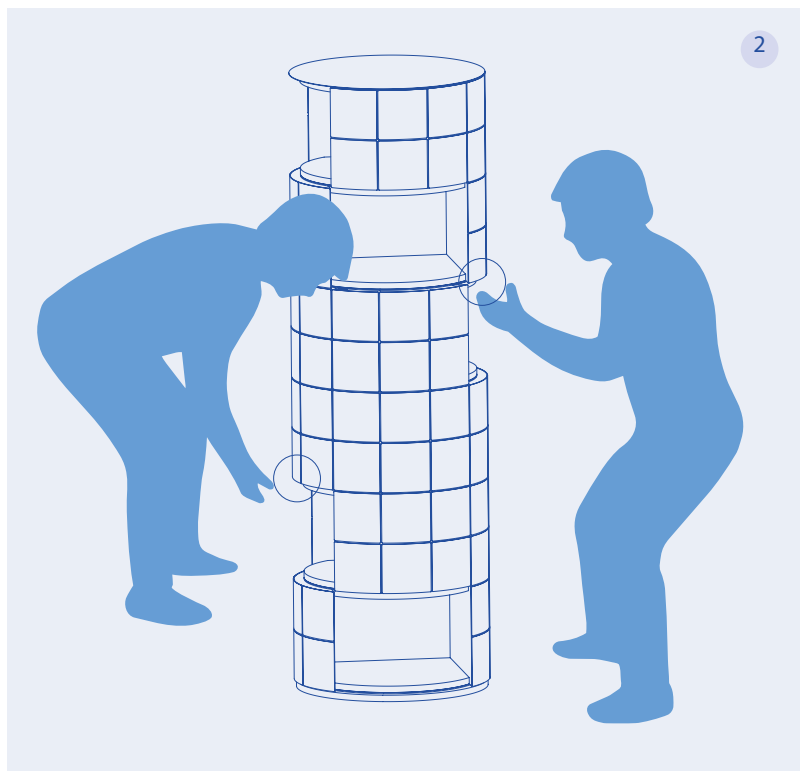

The cabinet must always be lifted by two people. Do not drag the product on the floor.

Il mobile deve essere sollevato sempre da due persone. Non trascinare il prodotto sul pavimento.

Because of its considerable weight, it is recommended to remove the drawers of the cabinet (see the following slide instructions) to reduce the unit's overall weight and create suitable areas for gripping (fig. 1).

A causa del suo notevole peso, si consiglia di rimuovere i cassetti del mobile (vedere le istruzioni per le guide di seguito) per ridurre il peso complessivo dell'unità e creare punti adeguati per la presa (fig. 1).

Grip and lift the cabinet through the openings left by the removed drawers, using them as secure points to ensure safe handling of the unit (fig. 2).

Afferrare e sollevare il mobile tramite le aperture lasciate dai cassetti rimossi, utilizzandole come punti di presa sicuri per garantire una movimentazione sicura dell'unità (fig. 2).
